

Navy 3 Electric outboard motor Technical Specifications

Motor

Drive

Input Power (from battery)	3KW	Control	Tiller or remote throttle
Comparable Gasoline Outboard	6HP	Trim Device	4 Steps (0°,7°,14°,21°)
Max Overall Efficiency	55%	Tiilt angle	Manual 60%
Max Propeller Speed	2300rpm	Drive	Direct
Rated current	63A		
Rated Voltage	48Volts		
Cooling	Natural convection heat transfer		

Size and Weight

Weight	S: 22kg / 48.5 lbs L: 22.6kg / 49.8.6lbs
Shaft Length (top of transom to centre of propeller)	S: 650mm / 25.6in L: 775mm / 30.5in
Propeller	Dia 320mm Pitch 157.32mm
